WELL LOCATION		CONSTRUCTION DETAILS																																									
County MEDINA Township SHARON		Drilling Method: CABLE TOOL																																									
Owner/Builder ANTHONY JACKSON		BOREHOLE/CASING (Measured from ground surface)																																									
7163 BEACH RD Address of Well Location		1 { Borehole Diameter 10 inches Depth 26 ft. Casing Diameter 5 in. Length 27.4 ft. Thickness 0.25 in.																																									
City WADSWORTH Zip Code +4 44281		2 { Borehole Diameter 5 inches Depth 50 ft. Casing Diameter in. Length ft. Thickness in.																																									
Permit No. 604318 Section; and/or Lot No.		Casing Height Above Ground 1.4 ft.																																									
Use of Well DOMESTIC		Type { 1: STEEL 2:																																									
Coordinates of Well (Use only one of the below coordinate systems)		Joints { 1: THREADED 2:																																									
Latitude, Longitude Coordinates		SCREEN																																									
Latitude: 41.079427 Longitude: -81.755185		Diameter in. Slot Size in. Screen Length ft.																																									
Elevation of Well in feet: 1147.6 +/- ft.		Type Material																																									
Datum Plane: NAD27 NAD83 Elevation Source DIGITAL MAP		Set Between ft. and ft.																																									
Source of Coordinates: GPS		GRAVEL PACK (Filter Pack)																																									
Well location written description:		Material/Size Vol/Wt. Used																																									
Comments on water quality/quantity and well construction: Water cloudy during initial cycling of system after well test was performed. Put pump on a timer for 4 days to cycle hourly and water cleared up nicely. Formation above 25' was making a significant amount of water somewhere between 13 and 25' but was too shallow to make a PWS well and deal with the additional procedural hurdles to make it code compliant.		Method of Installation																																									
		Depth: Placed From: ft. To: ft.																																									
		GROUT																																									
		Material BENTONITE SLURRY Vol/Wt. Used 80 GALLONS																																									
		Method of Installation PUMPED WITH TREMIE PIPE																																									
		Depth: Placed From: 0 ft. To: 26 ft.																																									
		DRILLING LOG*																																									
		FORMATIONS INCLUDE DEPTH(S) AT WHICH WATER IS ENCOUNTERED.

WELL TEST *																																											
Pre-Pumping Static Level 30 ft. Date 5/24/2023																																											
Measured from GROUND LEVEL																																											
Pumping test method PUMPING																																											
Test Rate 12 gpm Duration of Test 2 hrs.																																											
Feet of Drawdown 5 ft. Sustainable Yield 12 gpm																																											
*(Attach a copy of the pumping test record, per section 1521.05, ORC)																																											
Is Copy Attached? Yes No Flowing Well? Yes No																																											
PUMP/PITLESS																																											
Type of pump Capacity gpm																																											
Pump set at ft. Pitless Type																																											
Pump installed by																																											
I hereby certify the information given is accurate and correct to the best of my knowledge.																																											
Drilling Firm VALLEY WELL & PUMP SERVICE INC																																											
Address PO BOX 118																																											
City, State, Zip PENINSULA OH 44264																																											
Signed Terry Padrutt Date 6/6/2023																																											
(Filed Electronically)																																											
ODH Registration Number 001164 Last Revised on 7/31/2025		Aquifer Type (Formation producing the most water.) SANDSTONE																																									
		Date of Well Completion 05/29/2023 Total Depth of Well 50 ft.																																									

Completion of this form is required by section 1521.05, Ohio Revised Code - file within 30 days after completion of drilling.
Distribute copies of this record to Customer, and Local Health Department.
